TO
HER EXCELLENCY
USA AMBASSADOR
Fax 981- 89 - 77

YOUR EXCELLENCY,

We want to express our high appreciation of the Quick Start Programme that has just started in Varna with great success.

NES believes that Bourgas and Montana will be the next most appropriate sites for the replication of the programme.

Preliminary studies reveal that many people will benefit from the programme in Montana, and great support and interest have been indicated from the local administration and the Regional Employment Service.

We were made to understand that USAID preferences are for Rousse, but we suggest we start with Montana first / after Bourgas / and replicate the effort in Rousse in the autumn of 1998.

Again we want to express our high esteem of the Quick Start Programme and the competence of the experts from the USDOL who implement the programme on local level. The Quick Start Programme is of great help to the community and the NES activities in the country.

With appreciation

Milcho Dimitrov

Deputy Minister,
NES Head
